Greetings!

Did you know that there's an upcoming evening that pairs wine, heartfelt testimonials and puppies?

I would love for you to join me at a special after-work event where you can learn more about Indiana Canine Assistant Network (ICAN) and the work they are doing with inmates who train the service dogs and individuals living with a disability. I promise you an evening filled with inspiration and heartfelt stories. You will learn how ICAN dogs are changing lives on both end of the leash. Testimonials and videos will be presented by clients who have received a service dog, former inmate handlers who trained the dogs and community members who have been impacted by ICAN.

The program includes light appetizers, wine, beer & non-alcoholic beverages. There is no fee to attend. However, it is my hope that you will be personally moved by the work ICAN is doing and will want to invest in their mission. The night will also include a launch of a very special 'Heart of the Mission' initiative where all donations will be matched up to \$15,000 by Bright Ideas in Broad Ripple. This will help ICAN continue to unleash abilities and change lives on both ends of the leash.

You will have the opportunity to meet many dogs and puppies that are on their journey of changing lives. You will also have the opportunity to purchase one of ICAN's beautiful calendars and have it 'auto-paw-graphed' by a service dog in training. This will be two wonderful hours of meeting clients, handlers and community members who have been deeply touched by the amazing work ICAN is doing.

More than 600 people will attend Wine & Wags, therefore, I want to make sure I get everyone registered in time to be part of this incredible evening. If you would like to invite other guests to join us, please let me know! With your support, we will play an important role in ICAN meeting it's goal of raising \$175,000.

Please let me know if you will join me on October 10th! I will finalize all the details with you as we get closer and I'm happy to answer any questions you may have in the meantime.
